

O MAIS ALTO NÍVEL DE PRECISÃO

## HIGH FLYERS WANTED

### Trainee - Production Management (m/f/x)

first in our headquarters near Osnabrück, followed by São Paulo, Brazil

For more than 140 years, AMAZONE has been developing high tech for the agricultural world. Day after day, customers from over 70 countries rely on AMAZONE machines to harvest the best possible results. This is how we make a decisive contribution to the global food supply.

At MP AGRO, a subsidiary of AMAZONE located in Ibaté, São Paulo, Brazil, you will work at a company recognized for its exceptional innovation, high quality, and expertise in advanced and sustainable fertilizer technology. Founded in 2012, MP AGRO has established itself as a trusted name in the Brazilian market, specializing in the development, production, and distribution of cutting-edge solutions for precision and sustainability in agriculture.

### Your training / This is what you move with us

Join our international trainee program AmazoneFuture and lay the foundation for your career in production management. Over the course of 18 months, you will gain practical experience in various key departments, including production planning, production control, and quality management, giving you a comprehensive understanding of production processes. This rotation across different areas ensures you develop a well-rounded skill set and deep insights into modern production practices.

Your journey will primarily take place at our German headquarters, where you will work closely with experienced teams and gain valuable hands-on experience. Additionally, a planned assignment at MP AGRO in Brazil will provide you with international exposure, allowing you to understand the dynamics of a global organization and experience the local market firsthand.

What makes this program special? It's more than just a learning opportunity – it's a chance to grow both professionally and personally. With the guidance of a personal mentor, tailored training sessions, and project-based learning, you'll enhance your technical expertise and gain practical knowledge that will prepare you for an exciting role at MP AGRO in Brazil. Upon successful completion of the program, a promising position awaits you at MP AGRO in Brazil, where you'll play a key role in driving our mission to deliver sustainable and cutting-edge agricultural technology.

### Your qualifications / This is what you bring with you

- **Educational background:** A degree in mechanical engineering, production, industrial engineering, or a related field, with a focus on manufacturing or industry.
- **Practical experience:** Initial exposure to production management through internships, part-time jobs, or project work.
- **Language skills:** Fluent English is essential; German skills are an advantage.
- **Global mindset:** Willingness to travel internationally and collaborate across cultures.
- **Key competencies:** Proactive mindset, strong analytical skills, and enthusiasm for innovation and sustainable production.

## Your benefits / This is what we offer

Attractive compensation package

High takeover chances

Short decision paths

Personal development

## Your new employer / This is AMAZONE

What began in 1883, we are now carrying on in the fourth generation: Together with over 2,500 employees, we develop innovative agricultural machinery and technologies. Every day, we work at over 9 locations to further optimize the performance and user-friendliness of our products.

We set high standards for quality and ongoing development in every department. Our corporate culture is characterized by cooperation and our shared success. With individual career paths, the AmaTrain personnel development program and a strong drive for innovation, we not only keep our company on course for growth, but also ensure a successful future for every single employee at AMAZONE.
